

Time	
08:00-17:30	Registration Desk (in Forum)
9:00-10:30	Doctoral Symposium Room: Grande 2
9:00-9:30	<i>Welcome</i>
9:30-10:30	<i>Keynote: Brian Fitzgerald</i>
10:30-11:00	Coffee/Tea Break (in Forum)
11:00-12:30	Doctoral Symposium Room: Grande 2
11:00-11:30	<i>Warm up session: reviewing each other work</i>
11:30-12:30	A Taxonomy of Metrics for Software Fault Prediction Maria Caulo Distributed Execution of Test Cases and Continuous Integration Carmen Coviello Failure-Driven Program Repair Davide Ginelli
12:30-14:00	Lunch (in Restaurant)
14:00-15:30	Doctoral Symposium Room: Grande 2 On Extending Single-Variant Model Transformations for Reuse in Software Product Line Engineering Sandra Greiner Improving Requirements Engineering Practices to Support Experimentation in Software Startups Jorge Melegati Managing the Open Cathedral Matthias Müller Machine-Learning Supported Vulnerability Detection in Source Code Tim Sonnekalb
15:30-16:00	Coffee/Tea Break (in Forum)
16:00-17:30	Doctoral Symposium Room: Grande 2
16:00-16:40	Exploratory Test Agents for Stateful Software Systems Stefan Karlsson A Longitudinal Field Study on Creation and Use of Domain-Specific Languages in Industry Jasper Denkers Helping Developers Search and Locate Task-Relevant Information in Natural Language Documents Arthur Marques
16:40-17:10	<i>Paper reading and Votation</i>
17:10-17:30	<i>Best presentation award and closing</i>
19:00-21:00	Doctoral Symposium Social Dinner
